

AGRICULTURE CODE  
TITLE 7. SOIL AND WATER CONSERVATION  
CHAPTER 201. SOIL AND WATER CONSERVATION  
SUBCHAPTER A. GENERAL PROVISIONS

Sec. 201.001. FINDINGS, PURPOSE, AND POLICY. (a) The legislature finds that the farm and grazing lands of the State of Texas are among the basic assets of the state and that the preservation of these lands is necessary to protect and promote the health, safety, and general welfare of its people; that improper land-use practices have caused and have contributed to, and are now causing and contributing to, progressively more serious erosion of the farm and grazing lands of this state by wind and water; that the breaking of natural grass, plant, and forest cover has interfered with the natural factors of soil stabilization, causing loosening of soil and exhaustion of humus, and developing a soil condition that favors erosion; that the topsoil is being blown and washed out of fields and pastures; that there has been an accelerated washing of sloping fields; that these processes of erosion by wind and water speed up with removal of absorptive topsoil, causing exposure of less absorptive and less protective but more erosive subsoil; that failure by an occupier of land to conserve the soil and control erosion upon the land causes a washing and blowing of soil and water onto other lands and makes the conservation of soil and control of erosion on those other lands difficult or impossible.

(b) The consequences of soil erosion in the form of soil-blowing and soil-washing are the silting and sedimentation of stream channels, reservoirs, dams, ditches, and harbors; the loss of fertile soil material in dust storms; the piling up of soil on lower slopes, and its deposit over alluvial plains; the reduction in productivity or outright ruin of rich bottom lands by overwash of poor subsoil material, sand, and gravel swept out of the hills; deterioration of soil and its fertility, deterioration of crops, and declining acre yields despite development of scientific processes for increasing such yields; loss of soil and water that causes destruction of food and cover for wildlife; a blowing and washing of soil into streams that silt over spawning beds and destroy waterplants, diminishing the food supply of fish; a diminishing of the underground water reserve that causes water shortages, intensifies periods of drought, and causes crop failures; an increase in the speed and volume of rainfall runoff, causing severe and increasing floods that bring suffering, disease, and death; impoverishment of families attempting to farm eroding and eroded lands; damage to roads, highways, railways, farm buildings, and other property from floods and from dust storms; and losses in navigation, hydroelectric power, municipal water supply, irrigation developments, farming, and grazing.

(c) In order to conserve soil resources and control and prevent soil erosion, it is necessary that land-use practices contributing to soil waste and soil erosion may be discouraged and discontinued, and appropriate soil-conserving land-use practices be adopted and carried out. Among the procedures necessary for widespread adoption are engineering operations such as the construction of terraces, terrace outlets, check dams, dikes, ponds, ditches, and the like; the utilization of strip-cropping, lister furrowing, contour cultivating, and contour furrowing; land irrigation; seeding and planting of waste, sloping, abandoned, or eroded lands to water-conserving and erosion-preventing plants, trees, and grasses; forestation and reforestation; rotation of crops, soil stabilization with trees, grasses, legumes, and other thick-growing, soil-holding crops, retardation of runoff by increasing absorption of rainfall; and retirement from cultivation of steep, highly erosive areas and areas now badly gullied or otherwise eroded.

(d) It is the policy of the legislature to provide for the conservation of soil and related resources of this state and for the control and prevention of soil erosion, and thereby to preserve natural resources, control floods, prevent impairment of dams and reservoirs, assist in maintaining the navigability of rivers and harbors, preserve wildlife, protect the tax base, protect public lands, and protect and promote the health, safety, and general welfare of the people of this state, and thus to carry out the mandate expressed in Article XVI, Section 59a, of the Texas Constitution. It is further declared as a matter of legislative intent and determination of policy that the State Soil and Water Conservation Board is the state agency responsible for implementing

the constitutional provisions and state laws relating to the conservation and protection of soil resources. Acts 1981, 67th Leg., p. 1458, ch. 388, Sec. 1, eff. Sept. 1, 1981. Amended by Acts 1985, 69th Leg., ch. 611, Sec. 1, eff. Sept. 1, 1985.

Sec. 201.023. FUNDS MANAGEMENT. (a) Except as provided by Section 201.081, the state board shall deposit all money and securities received by it in the state treasury to the credit of a special fund known as the state soil conservation fund. That fund shall be appropriated to the state board for use in the administration of this chapter and is subject to the same care and control while in the state treasury as other funds of the state.

(b) The financial transactions of the state board are subject to audit by the state auditor in accordance with Chapter 321, Government Code. The board shall file annually with the governor and the presiding officer of each house of the legislature a complete and detailed written report that accounts for all funds received and disbursed by the board during the preceding year. The form of the annual report and the time for the report shall be prescribed in the General Appropriations Act.

(c) The state board by resolution may authorize the chairman of the board or the administrative officer to approve claims and accounts payable by the board. That approval is sufficient to authorize the comptroller of public accounts to issue a warrant drawn on the funds appropriated to the board for payment of the claim and is sufficient to authorize the comptroller to honor payment of the warrant.

(d) The state board may accept any donation or contribution in any form, including money, materials, or services, and from any source for the purpose of carrying out this chapter, including the cost of conducting the annual meeting of conservation district directors under Section 201.081 of this code.

Sec. 201.0231. COMPLAINTS. (a) The state board shall maintain a file on each written complaint filed with the state board.

(b) The file must include:

(1) the name of the person who filed the complaint;

(2) the date the complaint is received by the state board;

(3) the subject matter of the complaint;

(4) the name of each person contacted in relation to

the complaint;

(5) a summary of the results of the review or investigation of the complaint; and

(6) an explanation of the reason the file was closed, if the state board closed the file without taking action other than to investigate the complaint.

(c) The state board shall provide to the person filing the complaint and to each person who is a subject of the complaint a copy of the state board's policies and procedures relating to complaint investigation and resolution.

(d) The state board, at least quarterly until final disposition of the complaint, shall notify the person filing the complaint and each person who is a subject of the complaint of the status of the investigation unless the notice would jeopardize an undercover investigation.

Sec. 201.024. CONTRACTS FOR WATERSHED PROTECTION AND FLOOD CONTROL PLANS. The state board may contract with one or more state or federal agencies or with one or more private firms for the development of plans necessary for securing detailed information and developing work plans for the location, design, installation, and construction of structures and other improvements for the reduction and prevention of floods in state-approved watershed protection and flood prevention projects of 250,000 acres or less.

Sec. 201.026. NONPOINT SOURCE POLLUTION. (a) The state board is the lead agency in this state for activity relating to abating agricultural and silvicultural nonpoint source pollution.

(b) As the lead agency, the state board shall:

(1) plan, implement, and manage programs and practices for abating agricultural and silvicultural nonpoint source pollution;

(2) have as a goal:

(A) setting priorities among voluntary efforts to reduce nonpoint source pollution and promoting those efforts in a manner consistent with the priorities; and

(B) assisting landowners to prevent regulatory enforcement actions related to nonpoint source pollution; and

(3) provide to the agricultural community information regarding the jurisdictions of the state board and the Texas Natural Resource Conservation Commission related to nonpoint source pollution.

(c) Except as required by Subchapter L, Chapter 26, Water Code, a permit or other authorization is not required under that chapter as a prerequisite for the land application of animal waste for beneficial use at agronomic rates to property that is not owned or controlled by the owner or operator of a facility that Chapter 26, Water Code, requires to hold a permit or other authorization. This section does not affect the authority of the Texas Natural Resource Conservation Commission to investigate or take enforcement action against a point source discharge under Section 26.121, Water Code.

(d) On the request of the owner of land on which animal waste is applied for agricultural purposes, the state board may create and certify a water quality management plan for the land.

Text of subsecs. (e) to (g) as added by Acts 2001, 77th Leg., ch.

1095, Sec. 11

(e) Other state agencies with responsibility for abating agricultural and silvicultural nonpoint source pollution shall coordinate any abatement programs and activities with the state board.

(f) The state board shall represent the state before the federal Environmental Protection Agency or other federal agencies

on a matter relating to agricultural or silvicultural nonpoint source pollution. Nothing herein shall impair the ability of:

(1) the General Land Office to represent the state before any federal agency in matters relating to the state's participation in the federal coastal zone management program;

(2) the Texas Natural Resource Conservation Commission to represent the state before any federal agency in matters relating to the state's overall participation in the Federal Water Pollution Control Act (33 U.S.C. Section 1251 et seq.); or

(3) the Texas Department of Agriculture to represent the state before any federal agency in matters relating to the state's overall participation in the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. Section 136 et seq.).

(g) In an area that the state board identifies as having or having the potential to develop agricultural or silvicultural nonpoint source water quality problems or an area within the "coastal zone" designated by the Coastal Coordination Council, the state board shall establish a water quality management plan certification program that provides, through local soil and water conservation districts, for the development, supervision, and monitoring of individual water quality management plans for agricultural and silvicultural lands. Each plan must be developed, maintained, and implemented under rules and criteria adopted by the state board and comply with state water quality standards established by the Texas Natural Resource Conservation Commission. The state board shall certify a plan that satisfies the state board's rules and criteria and complies with state water quality standards established by the Texas Natural Resource Conservation Commission under the commission's exclusive authority to set water quality standards for all water in the state.

Text of subsecs. (e) to (g) as added by Acts 2001, 77th Leg., ch. 1189, Sec. 1

(e) At the request of the landowner, the state board may develop and certify a water quality management plan for any agricultural or silvicultural land in the state. Section 26.302(b-1), Water Code, applies to a water quality management plan developed or certified for use by a poultry facility under this section.

(f) A water quality management plan developed under this section that covers land on which animal carcasses will be buried must include:

(1) disposal management practices for the carcasses, including a requirement that poultry carcasses may be buried on site only in the event of a major die-off that exceeds the capacity of a poultry facility to handle and dispose of poultry carcasses by the normal means used by the facility; and

(2) burial site requirements that identify suitable locations for burial based on site-specific factors including:

(A) land use;

(B) soil conditions; and

(C) proximity to groundwater or surface water supplies.

(g) The commission may not require a landowner who requests and complies with a water quality management plan under Subsection (f) to record the burial of animal carcasses in the county deed records.

(h) The state board shall notify the Texas Natural Resource Conservation Commission not later than the 10th business day after the date the state board decertifies a water quality management plan for an animal feeding operation.

(i) The state board shall update the state board's identification of priority areas for the control of nonpoint source pollution at least every four years. The state board, in considering changes to the identified priority areas, shall consider:

(1) bodies of water the Texas Natural Resource Conservation Commission has identified as impaired through the state water quality assessment process;

(2) threatened areas in which action is necessary to prevent nonpoint source pollution; and

(3) other areas of concern, including groundwater concerns.

(j) Complaints concerning a violation of a water quality management plan or a violation of a law or rule relating to

agricultural or silvicultural nonpoint source pollution under the jurisdiction of the state board shall be referred to the state board. The state board, in cooperation with the local soil and water conservation district, shall investigate the complaint. On completion of the investigation, the state board, in consultation with the soil and water conservation district, either shall determine that further action is not warranted or shall develop and implement a corrective action plan to address the complaint. If the person about whom the complaint has been made fails or refuses to take corrective action, the state board shall refer the complaint to the Texas Natural Resource Conservation Commission.

Sec. 201.027. ENFORCEMENT REFERRAL RECORDS. (a) The state board shall maintain detailed records about each state board referral of an agricultural or silvicultural operation to the Texas Natural Resource Conservation Commission for enforcement.

(b) Records maintained under Subsection (a) must include information regarding the final disposition of the referral by the Texas Natural Resource Conservation Commission, including any enforcement action taken against the agricultural or silvicultural operation.

Added by Acts 2001, 77th Leg., ch. 1095, Sec. 12, eff. Sept. 1, 2001.

Sec. 201.028. SEMIANNUAL REPORT. Not later than January 1 and July 1 of each year, the state board shall prepare and deliver to the governor, the lieutenant governor, and the speaker of the house of representatives a report relating to the status of the budget areas of responsibility assigned to the board, including outreach programs, grants made and received, federal funding applied for and received, special projects, and oversight of water conservation district activities.

Added by Acts 2003, 78th Leg., ch. 200, Sec. 13(d), eff. Sept. 1, 2003; Acts 2003, 78th Leg., ch. 983, Sec. 5, eff. Sept. 1, 2003.

#### SUBCHAPTER C. CREATION, BOUNDARY CHANGES, AND DISSOLUTION OF SOIL AND WATER CONSERVATION DISTRICTS

Sec. 201.041. PETITION. (a) The eligible voters of any territory may petition the state board for the organization of a soil and water conservation district. The petition must be signed by at least 50 persons eligible to vote in an election to create the conservation district unless the territory contains fewer than 100 eligible voters, in which case the petition must be signed by a majority of the eligible voters in the territory.

(b) The petition must contain:

(1) a proposed name for the conservation district;  
(2) a description of the territory proposed to be organized as a conservation district;  
(3) a statement that there is need for a conservation district to function in the described territory in the interest of the public health, safety, and welfare; and

(4) a request that:

(A) the state board define the boundaries of the conservation district;

(B) an election be held within the defined territory on the question of creation of a conservation district in that territory; and

(C) the state board determine that the conservation district be created.

(c) The petition is not required to describe the territory by metes and bounds or by legal subdivisions, but must be generally accurate in order to be sufficient.

(d) If more than one petition is filed covering parts of the same territory, the state board may consolidate any or all of the petitions.

Acts 1981, 67th Leg., p. 1464, ch. 388, Sec. 1, eff. Sept. 1, 1981.

Sec. 201.042. HEARING. (a) Not later than the 30th day after the day on which a petition is filed with the state board, the state board shall give notice of a hearing on:

(1) the question of the desirability and necessity of the creation of a conservation district in the interest of the public health, safety, and welfare;

(2) the question of the appropriate boundaries to be

assigned to the conservation district;

(3) the propriety of the petitions and other proceedings taken under this chapter; and

(4) all questions relevant to those matters.

(b) Following notice, the state board shall conduct a hearing on the petition. Any interested person, including a person who is an eligible voter in the territory described in the petition or in the territory that is considered for addition to the described territory, is entitled to attend the hearing and be heard.

(c) If it appears at the hearing that it may be desirable to include within the conservation district territory that is outside the area within which notice has been given, the state board shall adjourn the hearing and give notice of further hearings throughout the entire area considered for inclusion in the conservation district. Following that notice, the board shall reconvene the hearing.

(d) After the hearing, if the state board, on the basis of the facts presented at the hearing and other available information, determines that there is need, in the interest of the public health, safety, and welfare, for a conservation district to function in the territory considered at the hearing, the board shall record that determination, define the boundaries of the conservation district by metes and bounds or by legal subdivisions, and conduct an election in accordance with Section 201.043 of this code. The board may not include within the defined boundaries any territory that is within the boundaries of another conservation district.

(e) In making the determination of need and defining the boundaries of the conservation district, the state board shall give due weight and consideration to:

(1) the topography of the area considered and of the state;

(2) the soil composition of the area considered and of the state;

(3) the distribution of erosion, the prevailing land-use practices, and the desirability and necessity of including within the conservation district the area under consideration;

(4) the benefits the area under consideration may receive from being included within the boundaries of the conservation district;

(5) the relation of the area considered to existing watersheds and agricultural regions and to other conservation districts in existence or proposed to be created; and

(6) other relevant physical, geographical, and economic factors, having due regard to the legislative determinations made in Section 201.001 of this code.

(f) After the hearing and consideration of the relevant facts, if the state board determines that there is no need for a conservation district to function in the territory considered at the hearing, it shall record that determination and deny the petition.

(g) The state board shall pay all expenses for the issuance of notices of the public hearings. The board shall supervise the conduct of those hearings and may adopt rules governing the conduct of the hearings.

Acts 1981, 67th Leg., p. 1465, ch. 388, Sec. 1, eff. Sept. 1, 1981.

Sec. 201.043. ELECTION. (a) Within a reasonable time after determining the need for a conservation district and defining the boundaries of the proposed conservation district, the state board shall conduct an election within the proposed conservation district on the proposition of the creation of the conservation district.

(b) The state board shall give notice of the election and the notice must state the boundaries of the proposed conservation district.

(c) The ballot for the election shall be printed to provide for voting for or against the proposition: "The creation of a soil and water conservation district from the land below described in general terms and lying in the county (or counties) of \_\_\_\_\_."

(d) Each eligible voter in the proposed conservation district, as determined by the state board, is entitled to vote in the election. If part of a county is included within a proposed conservation district and the polling place of an eligible voter within the county is not included within the conservation district, the voter is entitled to vote at the polling place for the voter's land in the conservation district.

(e) Except as otherwise provided by this chapter, the election shall be conducted in conformity with the general laws relating to elections.

(f) The state board shall adopt rules for the conducting of elections, including rules providing for the registration of all eligible voters prior to the date of the election or prescribing another appropriate procedure for the determination of eligibility to vote.

Acts 1981, 67th Leg., p. 1466, ch. 388, Sec. 1, eff. Sept. 1, 1981.

Sec. 201.044. STATE BOARD DETERMINATION OF ADMINISTRATIVE PRACTICABILITY AND FEASIBILITY. (a) After announcing the results of an election, the state board shall consider, determine, and record its determination of whether the operation of the conservation district within the defined boundaries is administratively practicable and feasible. In making that determination, the state board shall give due regard and consideration to:

(1) the attitude of eligible voters in the defined boundaries;

(2) the number of persons eligible to vote in the election who voted;

(3) the number of votes cast in the election favoring creation of the conservation district in proportion to the total number of votes cast;

(4) the approximate wealth and income of the eligible voters of the proposed conservation district;

(5) the probable expense of carrying on erosion control operations within the proposed conservation district; and

(6) other relevant social and economic factors, having due regard for the legislative determinations made in Section 201.001 of this code.

(b) The state board may proceed with the organization of the conservation district only if:

(1) the board determines that the operation of the conservation district is administratively practicable and feasible; and

(2) at least two-thirds of the votes cast in the election were in favor of creation of the conservation district.

(c) If the state board determines that the operation of the conservation district is not administratively practicable and feasible, the state board shall deny the petition.

Acts 1981, 67th Leg., p. 1466, ch. 388, Sec. 1, eff. Sept. 1, 1981.

Sec. 201.045. SUBSEQUENT PETITIONS. If the state board denies a petition under this subchapter, a subsequent petition covering the same or substantially the same territory may not be filed with the board until six months have expired following the date of denial.

Acts 1981, 67th Leg., p. 1467, ch. 388, Sec. 1, eff. Sept. 1, 1981.

Sec. 201.046. ESTABLISHMENT OF DISTRICT SUBDIVISIONS; APPOINTMENT OF INITIAL DIRECTORS. After determining that the operation of the conservation district is administratively practicable and feasible, the state board shall divide the conservation district into five numbered subdivisions that are as nearly equal in area as practicable. The board shall appoint one director each from the subdivisions numbered two and four. Those directors shall perform the duties required by this subchapter and shall serve on the initial governing board of the conservation district until the regular election for those subdivisions.

Acts 1981, 67th Leg., p. 1467, ch. 388, Sec. 1, eff. Sept. 1, 1981.

Sec. 201.047. APPLICATION FOR CERTIFICATE OF ORGANIZATION. (a) The two appointed directors shall present to the secretary of state an application for a certificate of organization for the conservation district containing the information prescribed by Subsection (b) of this section and a statement from the state board containing the information prescribed by Subsection (c) of this section. The application and the statement are not required to contain any detail other than a recital of the information required by this section.

(b) The application for the certificate must contain:

(1) a statement that:

(A) a petition for the creation of the conservation district was filed with the state board in accordance with this chapter;

(B) the proceedings specified in this chapter were taken relative to that petition;

(C) the application is being filed in order to complete the organization of the conservation district as a governmental subdivision and a public body corporate and politic under this chapter; and

(D) the state board has appointed the applicants as directors;

(2) the name and official residence of each of the appointed directors;

(3) a certified copy of the appointment of the directors evidencing their right to office;

(4) the term of office of each of the appointed directors;

(5) the name that is proposed for the conservation district; and

(6) the location of the principal office of the appointed directors.

(c) The statement of the state board must set forth the boundaries of the conservation district and certify that:

(1) a petition was filed, notice issued, and a hearing held as required by this chapter;

(2) the board did determine that there is need, in the interest of the public health, safety, and welfare, for a conservation district to function in the proposed territory;

(3) the board did define the boundaries of the conservation district;

(4) notice was given and an election held on the question of the creation of the conservation district;

(5) the result of the election showed a two-thirds majority of the votes cast in the election to be in favor of the creation of the conservation district; and

(6) the board did determine that the operation of the conservation district is administratively practicable and feasible.

(d) The directors shall subscribe and swear to the application before an officer authorized by law to take and certify oaths. That officer shall certify on the application that the officer personally knows the directors, that the officer knows them to be the directors as affirmed in the application, and that each director has subscribed to the application in the officer's presence.

Acts 1981, 67th Leg., p. 1467, ch. 388, Sec. 1, eff. Sept. 1, 1981.

Sec. 201.048. ISSUANCE OF CERTIFICATE. (a) The secretary of state shall examine the application for a certificate of organization and the statement of the state board. If the secretary of state finds that the name proposed for the conservation district is not identical to that of another conservation district or so nearly similar as to lead to confusion or uncertainty, the secretary shall receive the application and statement, file them, and record them in an appropriate book of record in the secretary's office.

(b) If the secretary of state finds that the name proposed for the conservation district is identical to that of another conservation district or so nearly similar as to lead to confusion or uncertainty, the secretary shall certify that fact to the state board and the state board shall submit to the secretary a new name for the conservation district that is free of that defect. After receipt of a name that is free of that defect, the secretary shall record the application and statement, with the modified name, in an appropriate book of record in the secretary's office.

(c) When the application and statement are filed and recorded as provided by this section, the conservation district constitutes a governmental subdivision and a public body corporate and politic.

(d) The secretary of state shall make and issue to the directors a certificate, under the state seal, of the due organization of the conservation district. The secretary shall record the certificate with the application and statement.

Acts 1981, 67th Leg., p. 1468, ch. 388, Sec. 1, eff. Sept. 1, 1981. Amended by Acts 1993, 73rd Leg., ch. 300, Sec. 24, eff. Aug. 30, 1993.

Sec. 201.049. EFFECT OF CERTIFICATE; ADMISSIBILITY. In a suit, action, or proceeding involving the validity or enforcement of, or relating to, a contract, proceeding, or action of a conservation district, the conservation district is considered to have been established in accordance with this chapter on proof of

the issuance of a certificate of organization by the secretary of state. A copy of the certificate certified by the secretary of state is admissible in evidence in the suit, action, or proceeding and is proof of the filing of the certificate and the contents of the certificate.

Acts 1981, 67th Leg., p. 1468, ch. 388, Sec. 1, eff. Sept. 1, 1981.

Sec. 201.050. CHANGE IN CONSERVATION DISTRICT OR SUBDIVISION BOUNDARIES. (a) A group of eligible voters may petition the state board for the inclusion of additional territory in an existing conservation district. Except as provided by Subsection (b) of this section, the petition is governed by, and the state board shall conduct proceedings on the petition in accordance with, the provisions of this subchapter relating to petitions for the creation of a conservation district. The state board shall prescribe the form for the petition, which must be as similar as practicable to the form provided for petitions for the creation of a conservation district.

(b) If there are fewer than 100 eligible voters in the area proposed for inclusion in the conservation district, and the petition is signed by two-thirds of those persons, the area may be included in the conservation district without an election. A person is eligible to vote at an election for including territory in an existing conservation district only if the person owns land in the territory to be included.

(c) The board of directors of one or more conservation districts may submit a petition to the state board requesting a division of the conservation district, a combination of two or more conservation districts, or a transfer of land from one conservation district to another. The petition must be signed by a majority of the directors of each conservation district affected. The state board shall determine the practicability and feasibility of the proposed change. If the state board determines that the change is not administratively practicable and feasible, it shall record that determination and deny the petition. If the board determines that the change is administratively practicable and feasible, it shall record that determination and reorganize the conservation districts in the manner set out in the petition.

(d) The state board, in cooperation with the landowners of a conservation district, may change the boundaries of the subdivisions of the conservation district as may be necessary or desirable because of additions of territory to the conservation district.

Acts 1981, 67th Leg., p. 1469, ch. 388, Sec. 1, eff. Sept. 1, 1981.

Sec. 201.051. DISSOLUTION OF CONSERVATION DISTRICT. (a) A conservation district may be dissolved by majority vote of the eligible voters in an election conducted in the manner provided by this subchapter for its creation. The board of directors of the conservation district shall notify the state board of the outcome of an election under this section.

(b) On receiving notice of a vote to dissolve a conservation district, the state board shall determine whether the conservation district should continue to operate. If the state board determines that continuing the operation of the conservation district is not administratively practicable and feasible, the state board shall deliver to the secretary of state certification of the district's dissolution.

(c) Certification by the state board to the secretary of state is sufficient notice of the dissolution of a conservation district. The secretary of state shall issue to the directors of the dissolved district a certificate of dissolution and shall record the fact of dissolution in the appropriate records of the secretary's office.

(d) On receiving a certificate of dissolution, the board of directors of the dissolved district shall terminate the affairs of the conservation district. The board shall transfer to the state board all property owned by the conservation district. The state board may:

(1) sell the property at a public auction and deposit the net proceeds of the sale in the State Treasury; or

(2) make the property available for use by other conservation districts.

(e) If the dissolution of a conservation district is for the purpose of adjusting the boundaries and the conservation district is immediately reorganized, the funds and equipment of the dissolved conservation district pass to the reorganized

conservation district. If more than one conservation district is created under the reorganization, the funds and equipment of the dissolved conservation district shall be divided under terms satisfactory to the directors of the reorganized conservation districts.

(f) The state board may not conduct an election under this section for a conservation district before the end of the fifth year after the date of the last election under this section for that district.

Acts 1981, 67th Leg., p. 1469, ch. 388, Sec. 1, eff. Sept. 1, 1981. Amended by Acts 1985, 69th Leg., ch. 611, Sec. 6, eff. Sept. 1, 1985.

Sec. 201.0511. EFFECT OF DISSOLUTION. (a) On issuance of a certificate of dissolution under Section 201.051 of this code, the ordinances and regulations adopted by the dissolved district cease to be in effect.

(b) A contract to which a dissolved district was a party remains in effect according to the terms of the contract. The state board is substituted for the dissolved district for purposes of performance of a contract. Under a contract of the dissolved district, the state board has all the rights and liabilities under the contract that the board of directors of the dissolved district had under the contract, including the right to sue and the liability to be sued.

(c) The dissolution of a conservation district does not affect a lien on a judgment obtained or an action pending under Section 201.128 of this code. The state board has all the rights and obligations with respect to a lien or an action under Section 201.128 as the board of directors of the dissolved district had under that section.

Added by Acts 1985, 69th Leg., ch. 611, Sec. 6, eff. Sept. 1, 1985.

#### SUBCHAPTER D. SOIL AND WATER CONSERVATION DISTRICT ADMINISTRATION

Sec. 201.071. COMPOSITION OF BOARD OF DIRECTORS. (a) Except as provided for the initial board, the board of directors of a conservation district is composed of five persons, with one director elected from each of the five numbered subdivisions created by the state board under Section 201.046 of this code.

(b) The initial board of directors is composed of the two directors appointed by the state board and three elected directors. Acts 1981, 67th Leg., p. 1470, ch. 388, Sec. 1, eff. Sept. 1, 1981.

Sec. 201.072. QUALIFICATIONS OF DIRECTORS. In order to serve as a director, a person must be an eligible voter who owns land within the numbered subdivision from which the person is appointed or elected and must be actively engaged in the business of farming or animal husbandry.

Acts 1981, 67th Leg., p. 1470, ch. 388, Sec. 1, eff. Sept. 1, 1981.

Sec. 201.073. ELECTION OF DIRECTORS. (a) Except as provided for the initial election of directors, the persons who are eligible voters and own land in a conservation district are entitled to elect the directors for the district. For that purpose, the eligible voters shall meet each year on a date and at a time and place designated by the existing board of directors. The directors shall designate for the election a date that is after September 30 and before October 16. Before July 15 of each year, the directors shall designate a date, time, and place for that year's election of directors.

(b) To be eligible for election under this section, an individual must file a written notice of the individual's candidacy. The individual must file the notice:

(1) during established business hours in the month of August at a location designated by the district; and

(2) in accordance with district rules.

(c) The district shall post a notice stating the requirements of Subsection (b) in a prominent public place.

(d) If only one individual files a notice of candidacy for a director's office during the period specified by Subsection (b)(1):

(A) declare the single candidate as the director for that office; and

(B) certify the selection of the individual as director in the manner provided by Subsection (f) for an elected director.

(e) If more than one individual files a notice of candidacy for a director's office during the period specified by Subsection (b)(1), the election shall be held at a meeting of eligible voters scheduled under Subsection (a). The district shall print ballots with the names of the candidates for each director's office to be filled. The district by rule shall provide for allowing eligible voters by personal appearance to cast votes on printed ballots at a location designated by the district instead of at the meeting. The rules must provide for votes to be accepted at the designated location during established business hours for a period beginning on the 17th day before the date of the meeting and continuing through the fourth day before the date of the meeting, including at least one Saturday during that period. If, because of the date scheduled for the meeting, it is not possible to begin early voting by personal appearance on the prescribed date, the early voting period shall begin on the earliest practicable date as set by the district. Each eligible voter present at the scheduled meeting shall cast a vote by ballots printed under this subsection. If after tabulation by the district of the votes cast before the meeting at the designated location and the votes cast at the meeting no nominee has received a majority of the votes, the two candidates receiving the largest number of votes shall be voted on in a second ballot, and the candidate receiving the largest number of votes among those cast before the meeting at the designated location and those cast at the meeting in the second ballot is elected. The district by rule shall provide for certifying eligible voters voting at the designated location and at the meeting.

(f) The directors shall:

(1) record the proceedings of the meeting; and

(2) not later than the fifth day after the date of the election, certify to the state board the name and the proper address of the person elected.

(b) The persons who are eligible voters and own land in a conservation district are entitled to elect the directors for the district. (c) If the number of qualified directors is less than the number required to conduct business as required by Section 201.078

of this code, the state board may call for an election to be held for the purpose of electing directors for each vacant subdivision to complete the unexpired term.

(d) An election under this section must be conducted in the manner provided by Section 201.073 of this code, except that the state board shall designate the date, time, and place of the election.

(c) Any note issued by a conservation district may be secured by a lien on the property or equipment to which the repairs, additions, or improvements are to be made if the property or equipment was not acquired from the state or with funds derived from the state. A note executed in connection with the purchase of real property may be secured only by the purchased real property.

(d) A conservation district may not levy taxes.

(e) Debts incurred by a conservation district may not create a lien on the land of owners or occupiers of land in the district.

(f) As a condition to extending benefits to, or performing any work on, land in the conservation district not owned or controlled by the state or a state agency, a conservation district may:

(1) require contributions to the operation in services, materials, or another form; and

(2) require owners or occupiers of land to enter into and perform an agreement or covenant as to the permanent use of land that will tend to prevent or control soil erosion on that land.

(d) A state agency that has jurisdiction over or administers state-owned land in a conservation district, or a county or other subdivision of this state that has jurisdiction over or administers other publicly owned land in a conservation district, shall cooperate to the fullest extent with the directors of the conservation district in the effectuation of programs and operations undertaken by the conservation district under this chapter. The state agency, county, or subdivision shall provide the directors free access to enter and perform work on that land, and a land-use regulation adopted under Subchapter F of this chapter has the force and effect of law over that land and shall be observed by the entity administering the land.

(d) A conservation district may charge persons who own or occupy small amounts of land nominal amounts for projects benefiting them if the directors determine it to be in the interest of the general welfare.

(e) A conservation district may sell on open bids any machinery or equipment considered obsolete or having served its purpose. The funds earned or acquired by a conservation district from a source other than the state or earned or acquired from the

operation or sale of machinery or equipment acquired from a source other than the state shall be deposited in a trust fund account of the conservation district and used for purposes considered by the directors to be in the best interest of the conservation district.

(f) A conservation district shall use proceeds from the sale of any fertilizer, seed, seedlings, fish for stocking farm ponds, or other supplies or conservation materials to reimburse the conservation district for the costs of the materials and administration of the program and may fix the sale prices accordingly.

In as much detail as possible, the plans shall specify the acts, procedures, performances, and avoidances that are necessary or desirable for the effectuation of the plans, including the specification of engineering operations, methods of cultivation, growing of vegetation, cropping programs, tillage practices, and changes in the use of land.

(b) A conservation district may publish the comprehensive plans and bring them to the attention of owners and occupiers of land in the conservation district and may demonstrate, publish, or otherwise make available to those owners and occupiers any pertinent information relating to legumes, cover crops, seeding, tillage, land preparation, and management of grasses, seed, legumes, and cover crops, and the eradication of noxious growth under good conservation practices.

(b) An ordinance adopted under this subchapter may:

(1) require the carrying out of necessary engineering operations, including the construction of terraces, terrace outlets, check dams, dikes, ponds, ditches, and other necessary structures;

(2) require observance of particular methods of cultivation, including:

(A) contour cultivating, contour furrowing, lister furrowing, or strip cropping;

(B) planting, sowing, or seeding land with

water-conserving and erosion-preventing plants, trees, or grasses; and

(C) forestations and reforestations;

(3) specify cropping programs and tillage practices to be observed;

(4) require the retirement from cultivation of highly erosive areas or of areas on which erosion may not be adequately controlled if cultivation is carried on; or

(5) provide other means, measures, operations, or programs that may assist conservation of soil resources or prevent or control soil erosion in the conservation district, having due regard for the legislative determinations made in Section 201.001 of this code.

(c) Land-use regulations must be uniform throughout the conservation district, except that the directors may classify land in the conservation district according to relevant factors, including soil type, degree of slope, degree of erosion threatened or existing, or cropping or tillage practices in use. The land-use regulations may vary with the type or class of land affected, but must be uniform as to all land within the type or class.

Acts 1981, 67th Leg., p. 1476, ch. 388, Sec. 1, eff. Sept. 1, 1981.

Sec. 201.122. HEARING. The directors of a conservation district may conduct public hearings and public meetings on proposed land-use regulations as necessary to assist the directors in the adoption of an ordinance.

Sec. 201.123. ELECTION. (a) The directors may not adopt an ordinance prescribing land-use regulations unless adoption of the ordinance is approved by at least 90 percent of the eligible voters voting in an election under this section. If the voters approve the ordinance by that percentage, the directors shall adopt the ordinance.

(b) The directors shall give notice of the election that either recites the contents of the proposed ordinance or states where copies of the proposed ordinance may be examined. The directors shall make copies of the proposed ordinance available for public inspection during the period between publication of notice and the election.

(c) The ballot for the election shall be printed to provide for voting for or against the proposition: "Approval of the proposed Ordinance No. \_\_\_\_\_, prescribing land-use regulations for conservation of soil and prevention of erosion."

(d) The directors shall adopt rules governing the conduct of the election, supervise the election, and announce the result.

Acts 1981, 67th Leg., p. 1476, ch. 388, Sec. 1, eff. Sept. 1, 1981.

Sec. 201.124. EFFECT OF ORDINANCE. An ordinance adopted under this subchapter has the force and effect of law in the conservation district and is binding on all owners or occupiers of land in the conservation district.

Acts 1981, 67th Leg., p. 1477, ch. 388, Sec. 1, eff. Sept. 1, 1981.

Sec. 201.125. DISTRIBUTION OF COPIES OF ORDINANCE. The directors shall print copies of each ordinance prescribing land-use regulations and make those copies available to owners and occupiers of land in the conservation district.

Acts 1981, 67th Leg., p. 1477, ch. 388, Sec. 1, eff. Sept. 1, 1981.

Sec. 201.126. AMENDMENT OR REPEAL OF ORDINANCE. (a) An owner or occupier of land in a conservation district may at any time file a petition with the directors requesting the amendment, supplementation, or repeal of land-use regulations prescribed by ordinance.

(b) Land-use regulations prescribed by ordinance may be amended, supplemented, or repealed in accordance with the procedure prescribed by this subchapter for adoption of an ordinance, except that an ordinance may be suspended or repealed on majority vote of the eligible voters voting in the election.

Acts 1981, 67th Leg., p. 1477, ch. 388, Sec. 1, eff. Sept. 1, 1981.

Sec. 201.127. FREQUENCY OF ELECTIONS. An election on the adoption, amendment, supplementation, or repeal of land-use regulations may not be held more often than once every six months.

Acts 1981, 67th Leg., p. 1477, ch. 388, Sec. 1, eff. Sept. 1, 1981.

Sec. 201.128. ENFORCEMENT. (a) The directors are entitled to go upon any land in the conservation district to determine if land-use regulations adopted under this subchapter are being observed.

(b) If the directors find that provisions of land-use

regulations prescribed by ordinance are not being observed on particular land and that the nonobservance tends to increase erosion on that land and is interfering with the prevention or control of erosion on other land in the conservation district, the directors may bring suit in a court of competent jurisdiction against the occupier of the land. If the occupier of the land is not the owner, the owner shall be joined as a party defendant. The petition to the court may request that the court:

(1) require the defendant to perform the work, operations, or avoidances within a reasonable time;

(2) order that if the defendant fails to perform, the directors may go upon the land and perform the work or other operations or otherwise bring the condition of the land into conformity with the land-use regulations; and

(3) order that the directors recover their costs and expenses, with interest, from the defendant.

(c) The petition to the court must be verified and must:

(1) set forth the adoption of the ordinance prescribing the land-use regulations;

(2) set forth the failure of the defendant to observe the regulations and to perform the particular work, operations, or avoidances required by the regulations; and

(3) state that the nonobservance tends to increase erosion on that land and is interfering with the prevention or control of erosion on other land in the conservation district.

(d) On presentation of the petition, the court shall cause process to be issued against the defendant and shall hear the case. If it appears to the court that testimony is necessary for the proper disposition of the matter, the court may take evidence or appoint a referee to take evidence as the court directs and to report the evidence to the court with findings of fact and conclusions of law. The findings and conclusions of a referee constitute part of the proceedings on which the court may make its determination. The court may dismiss the petition or may:

(1) require the defendant to perform the work, operations, or avoidances;

(2) order that, on the failure of the defendant to initiate performance within a time specified in the order of the court and to perform to completion with reasonable diligence, the directors may enter on the land involved and perform the work or operation or otherwise bring the condition of the land into conformity with the regulations; and

(3) order that the directors recover their costs and expenses, with interest.

(e) The court shall retain jurisdiction of the case until after the work has been completed. If the work is performed by the directors under the order of the court, the directors, after completion of the work, may file a petition with the court stating the costs and expenses sustained by them in the performance of the work and seeking judgment for those costs and expenses, with interest. The court may enter judgment for the amount of the costs and expenses, with interest, and for the costs of suit, including a reasonable attorney's fee fixed by the court, but the total charge to a defendant for work done by the directors or anyone under the directors may not exceed in any one year an amount equal to 10 percent of the assessed valuation of the land for state and county purposes.

(f) A judgment under Subsection (e) of this section shall be collected in the same manner provided by Chapter 202 of this code for the collection of assessments in wind erosion conservation districts.

Acts 1981, 67th Leg., p. 1477, ch. 388, Sec. 1, eff. Sept. 1, 1981.

Sec. 201.129. BOARD OF ADJUSTMENT. (a) If the directors of a conservation district adopt an ordinance prescribing land-use regulations, the directors by ordinance shall provide for the establishment of a board of adjustment organized in accordance with this section.

(b) A board of adjustment is composed of three members appointed by the state board with the advice and approval of the directors of the conservation district for which they are appointed.

(c) Except as provided for the initial board, members of a board of adjustment serve for staggered terms of two years with the terms of one or two members expiring every other year. In making initial appointments to a board of adjustment, the state board

shall designate one or two members to serve a term of one year with the remaining member or members serving for a term of two years.

(d) Following notice and a hearing, a member of a board of adjustment may be removed, but only for neglect of duty or malfeasance in office. The state board and the directors of the conservation district for which the board is appointed shall conduct removal hearings jointly.

(e) A vacancy on a board of adjustment is filled for the unexpired term in the manner provided for the original appointment.
