Board

# TSSWCB Mission

---

- It is the mission of the Texas State Soil and Water Conservation Board, working in conjunction with local soil and water conservation districts, to encourage the wise and productive use of natural resources.

# TSSWCB Goal

---

- It is the goal of the Texas State Soil and Water Conservation Board to ensure the availability of those resources for future generations so that all Texans' present and future needs can be met in a manner that promotes a clean, healthy environment and strong economic growth.

# TSSWCB Philosophy

---

- The Texas State Soil and Water Conservation Board will act in accordance with the highest standards of ethics, accountability efficiency, and openness. We affirm that the conservation of our natural resources is both a public and a private benefit and we approach our activities with a deep sense of purpose and accountability.

Board

# TSSWCB Philosophy Con't

---

- The TSSWCB believes that the existing unique organizational structure of soil and water conservation districts, whereby owners and operators of the state's farm and grazing lands organize and govern themselves through a program of voluntary participation, is the most realistic and cost effective means of achieving the State's goal for the conservation and wise use of its natural resources.
