Poultry Site Assessment Questionnaire

For the initial portion of the site assessment process required under 31 TAC §523.3(j), the following questions must be answered to determine if an odor control plan will be required for the poultry facility:

- Are there any businesses, off-site permanently inhabited residences, places of worship, schools, healthcare facilities, or other poultry farms within ½ mile of this poultry facility? Yes / No

**STOP, no further evaluation required under 31 TAC §523.3(j), sign below.**

- Will the facility house less than 10,000 total birds? Yes / No

- Will the facility be a new constructed farm OR increase the existing total farm bird numbers more than 50% of the total documented in the WQMP as of September 1, 2009 or initial date of operation, whichever is later? Yes / No

- Is there an existing OCP for this facility? Yes / No

**ANY answer in this block is Yes**

- Are there any neighbors currently within ¼ of one mile of the facility? Yes / No
  (neighbors are businesses, off-site permanently inhabited residences, places of worship, or other poultry farms)

- Are there any neighbors, in the prevailing wind direction of the facility, between ¼ and ½ mile considering both cool and warm seasons? Yes / No

- Are there any places of worship, schools, healthcare facilities, or other poultry farms within ½ of one mile of the facility? Yes / No

- Will the facility house more than 225,000 total birds? Yes / No

- Will the facility use a liquid waste handling system? Yes / No

- Has the facility been issued a Notice of Violation for odor within the last 12 months? Yes / No

**ALL answers in this block are No**

- The facility is likely to cause a persistent nuisance odor and the current owner/operator must obtain approval from Texas Commission on Environmental Quality of an Odor Control Plan, (or alternatively, provide completed PSA 003 and consent forms, PSA 004, for all neighbors within ½ of one mile of the poultry facility).

- Proceed to Site Assessment Tool, PSA 002, for further determination

- Obtain approval from TCEQ of an OCP anyway.

I hereby certify that I am an authorized owner or operator of the herein described facility and I affirm that the answers to the questions above are true and correct and I understand that falsification of any of the above questions is grounds for removal of certification of my water quality management plan and possible penalties by Texas Commission on Environmental Quality pursuant to Chapter 26 Texas Water Code.
